Words that are not defined in this Code of Ordinances or by the *Code of Iowa* have their ordinary meaning unless such construction would be inconsistent with the manifest intent of the Council, or repugnant to the context of the provision.

1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly, or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees, or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents, and employees, and agrees to save them harmless from any and all claims, demands, lawsuits, or liability whatsoever for any loss, damage, injury, or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City, whether expressly recited therein or not.

1.05 PERSONAL INJURIES. When action is brought against the City for personal injuries alleged to have been caused by its negligence, the City may notify in writing any person by whose negligence it claims the injury was caused. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend. A judgment obtained in the suit is conclusive in

any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council, with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate, or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances that amend, repeal, or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

(Code of Iowa, Sec. 380.2)

1.09 CATCHLINES AND NOTES. The catchlines of the several sections of this Code of Ordinances, titles, headings (chapter, section and subsection), editor’s notes, cross references, and State law references, unless set out in the body of the section itself, contained in this Code of Ordinances, do not constitute any part of the law and are intended merely to indicate, explain, supplement, or clarify the contents of a section.

1.10 ALTERING CODE. It is unlawful for any unauthorized person to change or amend, by additions or deletions, any part or portion of this Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with this Code of Ordinances in any manner that will cause the law of the City to be misrepresented.

1.11 SEVERABILITY. If any section, provision, or part of this Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of this Code of Ordinances as a whole or any section, provision, or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure, or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant, or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

1.13 GENERAL STANDARDS FOR ACTION. Whenever this Code of Ordinances grants any discretionary power to the Council or any commission, board, or officer or employee of the City and does not specify standards to govern the exercise of the power, the

power shall be exercised in light of the following standard: The discretionary power to grant, deny, or revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

1.14 STANDARD PENALTY. Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least \$105.00 but not to exceed \$855.00.[†]

(Code of Iowa, Sec. 364.22[3])

4.02 ENVIRONMENTAL VIOLATION. A municipal infraction that is a violation of Chapter 455B of the *Code of Iowa* or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22[1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.
2. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person not engaged in the industrial production or manufacturing of grain products.
3. The discharge of airborne residue from grain, created by the handling, drying, or storing of grain, by a person engaged in such industrial production or manufacturing if such discharge occurs from September 15 to January 15.

4.03 PENALTIES. A municipal infraction is punishable by the following civil penalties:

(Code of Iowa, Sec. 364.22[1])

1. Standard Civil Penalties.

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within 24 hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight hours.

4.04 CIVIL CITATIONS. Any officer authorized by the City to enforce this Code of Ordinances may issue a civil citation to a person who commits a municipal infraction. A copy of the citation may be served by personal service as provided in Rule of Civil Procedure 1.305, by certified mail addressed to the defendant at defendant's last known mailing address, return receipt requested, or by publication in the manner as provided in Rule of Civil Procedure 1.310 and subject to the conditions of Rule of Civil Procedure 1.311. A copy of the citation shall be retained by the issuing officer, and the original citation shall be sent to the Clerk of the District Court. If the citation affects real property and charges a violation relating to the condition of the property, including a building code violation, a local housing regulation violation, a housing code violation, or a public health or safety violation, after filing the citation with the Clerk of the District Court, the City shall also file the citation in the office of the County Treasurer.

4.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22[8])

4.06 CRIMINAL PENALTIES. Nothing in this chapter shall be construed to prohibit the filing and prosecution of a criminal complaint when, in the discretion of the City Attorney, such prosecution is necessary for the furtherance of justice. A criminal conviction shall not be used in the determination of whether an infraction is a repeat offense. 8.05 Limitations

8.06 Applications

8.07 Approval

8.08 Exemption Repealed

8.09 Dual Exemptions Prohibited

8.01 PURPOSE. The purpose of this chapter is to provide for a partial exemption from property taxation of the actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers.

8.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Actual value added” means the actual value added as of the first year for which the exemption is received.
2. “Distribution center” means a building or structure used primarily for the storage of goods that are intended for subsequent shipment to retail outlets. Distribution center does not mean a building or structure used primarily to store raw agricultural products, used primarily by a manufacturer to store goods to be used in the manufacturing process, used primarily for the storage of petroleum products, or used for the retail sale of goods.
3. “New construction” means new buildings and structures and includes new buildings and structures that are constructed as additions to existing buildings and structures. New construction does not include reconstruction of an existing building or structure that does not constitute complete replacement of an existing building or structure or refitting of an existing building or structure unless the reconstruction of an existing building or structure is required due to economic obsolescence and the reconstruction is necessary to implement recognized industry standards for the manufacturing and processing of specific products and the reconstruction is required for the owner of the building or structure to continue competitively to manufacture or process those products, which determination shall receive prior approval from the City Council.
4. “Research-service facilities” means a building or group of buildings devoted primarily to research and development activities, including (but not limited to) the design and production or manufacture of prototype products for experimental use and corporate research services that do not have a primary purpose of providing on-site services to the public.
5. “Warehouse” means a building or structure used as a public warehouse for the storage of goods pursuant to Chapter 554, Article 7, of the *Code of Iowa*, except that it does not mean a building or structure used primarily to store raw agricultural products or from which goods are sold at retail.

8.03 PERIOD OF PARTIAL EXEMPTION. The actual value added to industrial real estate by the new construction of industrial real estate, research-service facilities, warehouses, and distribution centers is eligible to receive a partial exemption from taxation for a period of

five years. The exemption shall also apply to the acquisition of or improvement to machinery and equipment assessed as real estate pursuant to Section 427A.1[1e] of the *Code of Iowa*, unless the machinery or equipment is part of the normal replacement or operating process to maintain or expand the existing operational status.

(Code of Iowa, Sec. 427B.3)

8.04 AMOUNTS ELIGIBLE FOR EXEMPTION. The amount of actual value added, which is eligible to be exempt from taxation, shall be as follows:

(Code of Iowa, Sec. 427B.3)

1. For the first year, 75 percent.
2. For the second year, 60 percent.
3. For the third year, 45 percent.
4. For the fourth year, 30 percent.
5. For the fifth year, 15 percent.

8.05 LIMITATIONS. The granting of the exemption under this chapter for new construction constituting complete replacement of an existing building or structure shall not result in the assessed value of the industrial real estate being reduced below the assessed value of the industrial real estate before the start of the new construction added.

(Code of Iowa, Sec. 427B.3)

8.06 APPLICATIONS. An application shall be filed for each project resulting in actual value added for which an exemption is claimed.

(Code of Iowa, Sec. 427B.4)

1. The application for exemption shall be filed by the owner of the property with the local assessor by February 1 of the assessment year in which the value added is first assessed for taxation.
2. Applications for exemption shall be made on forms prescribed by the Director of Revenue and shall contain information pertaining to the nature of the improvement, its cost, and other information deemed necessary by the Director of Revenue.

8.07 APPROVAL. A person may submit a proposal to the City Council to receive prior approval for eligibility for a tax exemption on new construction. If the City Council resolves to consider such proposal, it shall publish notice and hold a public hearing thereon. Thereafter, at least 30 days after such hearing, the City Council, by ordinance, may give its prior approval of a tax exemption for new construction if the new construction is in conformance with City zoning. Such prior approval shall not entitle the owner to exemption from taxation until the new construction has been completed and found to be qualified real estate.

(Code of Iowa, Sec. 427B.4)

8.08 EXEMPTION REPEALED. When in the opinion of the City Council continuation of the exemption granted by this chapter ceases to be of benefit to the City, the City Council may repeal this chapter, but all existing exemptions shall continue until their expiration.

(Code of Iowa, Sec. 427B.5)

8.09 DUAL EXEMPTIONS PROHIBITED. A property tax exemption under this chapter shall not be granted if the property for which the exemption is claimed has received any other property tax exemption authorized by law.

1. Whenever a hazardous condition is created so that a hazardous substance or waste or a constituent of a hazardous substance or waste has entered or may enter the environment, be emitted into the air, or discharged into any waters, including ground waters, the person having control over a hazardous substance shall alleviate—or cause to be alleviated—the condition by cleanup or treatment, as defined by Section 36.02, and shall restore the affected area to its condition prior to the hazardous condition as far as practicable. The cost of cleanup or treatment shall be borne by the responsible person.

2. If the person having control over a hazardous substance cannot be located within a reasonable period of time, or if the person having control over a hazardous substance does not cause the cleanup or treatment to begin within a time reasonable in relation to the hazard and circumstances of the incident, the City may, by establishment of control of the scene of emergency by the Incident Commander and having rendered the problem as no longer an emergency, give notice to the responsible person, which shall be reasonable considering the character of the hazardous condition. The notice shall state a deadline for accomplishing the cleanup or treatment and state that the City will proceed to procure cleanup or treatment services if the cleanup or treatment is not accomplished within the deadline. The notice shall state that the person having control over a hazardous substance will be billed for all costs associated with the cleanup or treatment and that the total shall be due and payable within 30 days following the receipt of the bill.

3. If the bill for the above services is not paid within 30 days, the City may proceed, after service of notice, either by certified mail or by one publication in a newspaper having general circulation within Union County, and hearing before the City Council, to obtain payment by all available legal means.

5. Whenever a hazardous condition which creates an immediate danger to public health or safety exists and it is necessary to take immediate action to correct this condition in order to protect the public health or safety, the Incident Commander or any peace officer may, without prior notice to the responsible person, take any mitigation action necessary to limit the immediate danger to the public health or safety. The responsible person shall be liable for the cost of all such mitigation action.

CHAPTER 46

MINORS

46.01 Curfew

46.02 Cigarettes and Tobacco

46.03 Contributing to Delinquency

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
 - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury, or loss of life.
 - B. “Knowingly” means knowledge that a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
 - C. “Minor” means any unemancipated person under the age of 18 years.
 - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room that is not designed, set aside, or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
 - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys, and sidewalks dedicated to public use and also includes such parts of buildings and other premises, whether publicly or privately owned, that are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

- F. "Responsible adult" means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.
2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of 10:00 p.m. and 5:00 a.m. of the following day on days commencing on Sunday, Monday, Tuesday, Wednesday and Thursday and between the hours of 11:00 p.m. and 5:00 a.m. on Friday and Saturday.
3. Exceptions. The following are exceptions to the curfew:
- A. The minor is accompanied by a responsible adult.
 - B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.
 - C. The minor is present at or is traveling between home and one of the following:
 - (1) Minor's place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end or before the beginning of work;
 - (2) Minor's place of religious activity or, if traveling, within one hour after the end or before the beginning of the religious activity;
 - (3) Governmental or political activity or, if traveling, within one hour after the end or before the beginning of the activity;
 - (4) School activity or, if traveling, within one hour after the end or before the beginning of the activity;
 - (5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end or before the beginning of the activity.
 - D. The minor is on an emergency errand for a responsible adult;
 - E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.
4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor's presence falls within one of the above exceptions.
5. Enforcement Procedures.
- A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver's license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.

B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any nonsecured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties.

A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.

B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a municipal infraction.

C. Minor's First Violation. In the case of a first violation by a minor, the law enforcement officer shall give the minor a written warning, which states that any subsequent violation will result in full enforcement of the curfew ordinance against the responsible adult and the minor, with applicable penalties, or, at the law enforcement officer's discretion, may issue the minor a citation for a first violation.

D. Minor's Second Violation. For the minor's second and subsequent violations of any of the provisions of this section, the minor is guilty of a municipal infraction.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under 21 years of age to smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products, alternative nicotine products, vapor products, or cigarettes. Possession of tobacco, tobacco products, alternative nicotine products, vapor products, or cigarettes by an individual under 21

years of age shall not constitute a violation of this section if the individual under 21 years of age possesses the tobacco, tobacco products, alternative nicotine products, vapor products, or cigarettes as part of the person's employment and said person is employed by a person who holds a valid permit under Chapter 453A of the *Code of Iowa* or who lawfully offers for sale or sells cigarettes or tobacco products. *(Ord. 250 – Aug. 20 Supp.)*

A request for a hearing must be made in writing and delivered to the Clerk within the time stated in the notice, or it will be conclusively presumed that a nuisance exists and it must be abated as ordered. The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.

† **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action that may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsection 1 and 2, and the hearing as provided in subsection 3.

(Code of Iowa, Sec. 364.12[3h])

5. Abatement by City. If the person notified to abate a nuisance or condition neglects or fails to abate as directed, the City may perform the required action to abate, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.

(Code of Iowa, Sec. 364.12[3h])

6. Collection of Costs. The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to abide by the notice to abate, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.

(Code of Iowa, Sec. 364.12[3h])

7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds \$500.00, the City may permit the assessment to be paid in up to 10 annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.

(Code of Iowa, Sec. 364.13)

8. Failure to Abate. Any person causing or maintaining a nuisance who shall fail or refuse to abate or remove the same within the reasonable time required and specified in the notice to abate is in violation of this Code of Ordinances.

50.07 MUNICIPAL INFRACTION ABATEMENT PROCEDURE. In lieu of the abatement procedures set forth in Section 50.06, the requirements of this chapter may be enforced under the procedures applicable to municipal infractions as set forth in Chapter 4 of this Code of Ordinances.

Any premises guarded by a guard dog shall be prominently posted with a sign containing the wording "Guard Dog," "Vicious Dog" or words of similar import, and the owner of such premises shall inform the Mayor or peace officer that a guard dog is on duty at said premises.

56.04 SEIZURE, IMPOUNDMENT AND DISPOSITION.

1. In the event that a dangerous animal or vicious animal is found at large and unattended upon public property, park property, public right-of-way, or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, in the discretion of the Mayor or peace officer, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of a dangerous animal or vicious animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.

2. Upon the complaint of any individual that a person is keeping, sheltering, or harboring a dangerous animal or vicious animal on premises in the City, the Mayor or peace officer shall cause the matter to be investigated and if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering, or harboring a dangerous or vicious animal in the City, the Mayor or peace officer shall order the person named in the complaint to safely remove such animal from the City or destroy the animal within three days of the receipt of such an order. Such order shall be contained in a notice to remove the dangerous or vicious animal, which notice shall be given in writing to the person keeping, sheltering, or harboring the dangerous animal or vicious animal, and shall be served personally or by certified mail. Such order and notice to remove the dangerous animal or vicious animal shall not be required where such animal has previously caused serious physical harm or death to any person, in which case the Mayor or peace officer shall cause the animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

The hearing of such appeal shall be scheduled within seven days of the receipt of the notice of appeal. The hearing may be continued for good cause. Such determination shall be contained in a written decision and shall be filed with the Clerk within three days after the hearing or any continued session thereof.

5. If the Council affirms the action of the Mayor or peace officer, the Council shall order in its written decision that the person owning, sheltering, harboring or keeping such dangerous or vicious animal remove such animal from the City or destroy it. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the notice of removal. If the original order of the Mayor or peace officer is not appealed and is not complied with within

Failure to comply with an order of the Mayor or peace officer issued pursuant to this chapter and not appealed, or of the Council after appeal, constitutes a simple misdemeanor.

56.05 SPECIAL BREEDS.

1. Insurance Required. The owner of any dog defined as a special breed shall present to the City Clerk a certificate of insurance issued by an insurance company licensed to do business in the State of Iowa, providing personal liability insurance coverage, as in a homeowner's policy, with a minimum amount of liability of \$100,000.00 for the injury or death of any person, for damage to property of others and for acts of negligence by the owner or his or her other agents, in the keeping or owning of such special breed. The certificate shall require notice to the City, in conformity with general standards for certificates of insurance, if the underlying policy of insurance is canceled for any reason. In lieu of such a certificate, a copy of a current homeowner's policy designating these requirements shall be sufficient proof of insurance for purposes of this subsection. If a certificate of insurance or policy is not immediately available, a binder indicating the coverage may be accepted for up to 30 days subsequent to the acquisition of the special breed; however, if after 30 days a certificate of insurance or a policy has not been submitted, the dog shall be removed from the City within 10 days.

2. Confinement of Special Breeds Required.

A. Any dog defined as a special breed shall be securely confined within an occupied house or residence or in a secured, enclosed, and locked pen or structure. Such a pen or structure must have secure sides and a secure top attached to the sides, or in lieu of a top, walls at least six feet in height or at least six feet taller than an internal structure, such as a doghouse.

B. All pens or structures designed, constructed or used to confine special breeds must be locked with a key or combination lock when such animals are within the structure. Such structure must have a four-inch-thick concrete bottom, attached to the sides of the pen, or the sides of the pen must be embedded in the ground no less than two feet so as to prevent digging under the walls by the confined special breed dog.

C. All structures erected to house special breed dogs must comply with the City zoning and building regulations. All such structures must be adequately lighted and ventilated and kept in a clean and sanitary condition. No such dog may be kept on a porch, patio, or in any part of a house or structure that would allow the dog to exit such building on its own volition.

D. No person shall permit a special breed dog to go outside its pen or structure unless such dog is securely leashed with a leash no longer than six feet in length. No person shall permit such dog to be kept on a chain, rope, or other type of leash outside its pen or structure unless both the dog and leash are under the actual physical control of a person 18 years of age or older.

E. Such dogs may not be leashed to inanimate objects such as trees, posts, buildings, or any other object or structure.

(Code of Iowa, Sec. 321G.9[4c])

- B. Direct Crossing. Snowmobiles may make a direct crossing of a prohibited street provided all of the following occur:

- (1) The crossing is made at an angle of approximately 90 degrees to the direction of the street and at a place where no obstruction prevents a quick and safe crossing;

- (2) The snowmobile is brought to a complete stop before crossing the street;

3. Railroad Right-of-Way. Snowmobiles shall not be operated on an operating railroad right-of-way. A snowmobile may be driven directly across a railroad right-of-way only at an established crossing and notwithstanding any other provisions of law may, if necessary, use the improved portion of the established crossing after yielding to all oncoming traffic.

(Code of Iowa, Sec. 321G.13[1h])

- B. East Grand Street
- C. U.S. Highway 169

Exceptions: Golf carts, ATVs and UTVs may cross the aforementioned streets and may be operated on any street in an emergency during a period of time when, and locations where, snow upon the roadway renders travel by conventional motor vehicles impractical. Permitted residents who reside on restricted streets are permitted to operate on that restricted street only to reach the nearest unrestricted street.

2. Trails. Golf carts, ATVs and UTVs shall not be operated on any recreational, bike or walking trail.

3. Sidewalks and Right-of-Ways. Golf carts, ATVs and UTVs shall not be operated upon public sidewalks or that portion of the street located between the curb line and the sidewalk or property line commonly referred to as the “right-of-way” except for purposes of crossing the same to a public street upon which operation is authorized by this chapter.

4. Exceptions: Golf carts, ATVs and UTVs may travel on the sidewalk on the west side of US HWY 169 between Railroad Street and Iowa Street in order to cross

6. Hours of Operation. Golf carts, ATVs and UTVs may operate only from sunrise to sunset. Except that ATVs and UTVs may be operated during prohibited hours to perform snow removal activities.

(Code of Iowa, Sec. 321.219)

10. Permits. No person shall operate a golf cart, ATV or UTV on any public street or alley for any purpose unless the golf cart, ATV or UTV has passed a safety inspection by the City of Afton Police Department and the operator possesses a City of Afton permit to operate a golf cart, ATV or UTV on City streets, issued by City Clerk.

11. Registration. Registration of all golf carts, ATVs and UTVs shall be effective from January 1 through December 31.

A. Exempt Vehicles. Registration shall not be required for:

The owner of a golf cart, ATV, UTV or snowmobile shall be liable for any such injury or damage only if the owner was the operator of the golf cart, ATV, UTV or snowmobile at the time of the injury or damage occurred or if the operator had the owner's consent to operate the golf cart, ATV, UTV or snowmobile at the time of the injury or damage occurred.

(Code of Iowa, Sec. 321G.18 and 321I.19)

The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for 90 days, and then shall be deposited in the State Road Use Tax Fund. The Superintendent or representatives shall have no authority to inquire into any processes including metallurgical, chemical, oil, refining, ceramic, paper, or other industries beyond that point having a direct bearing on the kind and source of discharge to the sewers or waterways or facilities for waste treatment.

95.08 USE OF EASEMENTS. The Superintendent and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the sewage works lying within said easement. All entry and subsequent work, if any, on said easement, shall be done in full accordance with the terms of the duly negotiated easement pertaining to the private property involved.

95.09 SPECIAL PENALTIES. The following special penalty provisions shall apply to violations of these Sanitary Sewer chapters:

1. Notice of Violation. Any person found to be violating any provision of these chapters except subsections 1, 3, and 4 of Section 95.04, shall be served by the City with written notice stating the nature of the violation and providing a reasonable time limit for the satisfactory correction thereof. The offender shall, within the period of time stated in such notice, permanently cease all violations.
2. Continuing Violations. Any person who shall continue any violation beyond the time limit provided for in subsection 1 hereof shall be in violation of this Code of Ordinances. Each day in which any such violation shall continue shall be deemed a separate offense.
3. Liability Imposed. Any person violating any of the provisions of these chapters shall become liable to the City for any expense, loss, or damage occasioned the City by reason of such violation.

CHAPTER 96

BUILDING SEWERS AND CONNECTIONS

96.01 Permit
96.02 Sewer Tap Fee
96.03 Plumber Required
96.04 Excavations
96.05 Connection Requirements

96.06 Interceptors Required
96.07 Sewer Tap
96.08 Inspection Required
96.09 Property Owner's Responsibility
96.10 Abatement of Violations

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within 30 days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 SEWER TAP FEE. There shall be a sewer tap fee in the amount of \$250.00 paid to reimburse the City for costs borne by the City in making sewer service available to the property served.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.04 EXCAVATIONS. All trench work, excavation, and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. Old Building Sewers. Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. Separate Building Sewers. A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.
3. Installation. The installation and connection of the building sewer to the public sewer shall conform to the requirements of the *State Plumbing Code* and

applicable rules and regulations of the City. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.

4. Water Lines. When possible, building sewers should be laid at least 10 feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least 12 inches above the top of the building sewer.

5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four inches.

6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:

- A. Recommended grade at one-fourth inch per foot.
- B. Minimum grade of one-eighth inch per foot.
- C. Minimum velocity of two feet per second with the sewer half full.
- D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.

7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.

8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.

9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:

- A. Clay sewer pipe – A.S.T.M. C-700 (extra strength).
- B. Extra heavy cast iron soil pipe – A.S.T.M. A-74.
- C. Ductile iron water pipe – A.W.W.A. C-151.
- D. P.V.C. – SDR26 – A.S.T.M. D-3034.

10. Bearing Walls. No building sewer shall be laid parallel to or within three feet of any bearing wall that might thereby be weakened.

11. Jointing. Fittings, type of joint and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.

12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings. Such encasement shall extend at least six inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as specified in the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid underground shall be covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.09 PROPERTY OWNER'S RESPONSIBILITY. All costs and expenses incident to the installation, connection, and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or

indirectly be occasioned by the installation of the building sewer. The homeowner is responsible from the house to the City's main.

96.10 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines, whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within 30 days after date of official notice from the Council of such violation. If not made within such time, the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

CHAPTER 97

USE OF PUBLIC SEWERS

97.01 Storm Water
97.02 Surface Waters Exception
97.03 Prohibited Discharges
97.04 Restricted Discharges

97.05 Restricted Discharges; Powers of Superintendent
97.06 Special Facilities
97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers that are specifically designated as combined sewers or storm sewers or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to be the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

than 350 parts per million by weight of suspended solids; or (iii) having an average daily flow greater than two percent of the average sewage flow of the City, shall be subject to the review of the Superintendent.

B. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to: (i) reduce the biochemical oxygen demand to 300 parts per million by weight; or (ii) reduce the suspended solids to 350 parts per million by weight; or (iii) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than 150 degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease or oils, whether emulsified or not, in excess of 100 milligrams per liter or 600 milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances that may solidify or become viscous at temperatures between 32 degrees F and 150 degrees F (0 degrees to 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits that may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of State, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials that exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance that, either singly or by interaction with other wastes, is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials, or substances that react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances that are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES; POWERS OF SUPERINTENDENT. If any waters or wastes are discharged or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a 24-hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples).

CHAPTER 98

99.02 Definitions	99.11 Billing for Sewer Service
99.03 Requirements	99.12 Lien for Nonpayment
99.04 Establishment of Funds	99.13 Lien Exemption
99.05 Maintenance of Funds	99.14 Lien Notice
99.06 Basis of Use Determination	99.15 Charge Review
99.07 Sewer Use Charge	99.16 User Notification
99.08 Surcharges	99.17 Customer Deposits
99.09 Additional Charges	

99.01 PURPOSE. The purpose of this chapter is to establish the procedures and regulations to be followed in the calculation, establishment, and collection of charges from contributors to the public sanitary sewerage system so that the City can pay for the operation and maintenance, as herein defined, of the wastewater treatment system and for the sewer bond debt retirement for financing the sewage system improvements constructed under SRF Project No. CS192053-01.

99.02 DEFINITIONS. Unless the context indicates otherwise, the meaning of terms used in this chapter shall be:

1. “Biochemical Oxygen Demand” (B.O.D.) means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at 20 degrees C, expressed in milligrams per liter (MG/L).
2. “Normal domestic wastewater” means wastewater that has a B.O.D. concentration of not more than 300 MG/L and a suspended solids concentration of not more than 300 MG/L.
3. “Operation and maintenance” means all expenditures during the useful life of the wastewater treatment facilities for materials, labor, utilities, and other items which are necessary for the management and maintenance of said treatment facilities to achieve the capacity and performance for which such works were designed and constructed.
4. “Replacement” means expenditures for obtaining and installing equipment, accessories or appurtenances which are necessary during the useful life of the wastewater treatment works to maintain the capacity and performance for which such facilities were designed and constructed. The term “operation and maintenance” includes replacement.
5. “Residential contributor” means any contributor to the public wastewater treatment works whose lot, parcel of real estate, or building is used for domestic dwelling purposes only.
6. “Suspended solids” (SS) means the total suspended solids that either float on the surface of or are in suspension in water, wastewater or other liquids and which are removable by laboratory filtering and referred to as nonfilterable residue. The procedure shall be that as prescribed in the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published jointly by the American Public Health Association, American Water Works Association and Water Pollution Control Federation.

7. "Useful life" means the estimated period during which the wastewater treatment works will be operated.
8. "User charge" means that portion of the total wastewater service charge which is levied in a proportional and adequate manner for the cost of operation, maintenance, and replacement of the wastewater treatment works.
9. "Wastewater" means the spent water of a community. From the standpoint of source, it may be a combination of the liquid and water-carried wastes from residences, commercial buildings, industrial plants and institutions, together with any groundwater, surface water and storm water that may be present. Wastewater is also commonly known as "sanitary sewage."
10. "Wastewater treatment works" means the devices and systems for the storage, treatment, recycling, and reclamation of municipal wastewater, domestic wastewater, or liquid industrial wastes. These include the collecting lateral, trunk, interceptor, and outfall sewer systems, individual systems, pumping, power and other equipment and appurtenances, extensions, improvement, remodeling, additions and alterations thereof; elements essential to provide a reliable recycled supply such as standby treatment units and clear well facilities; and any works, including site acquisition of the land that will be an integral part of the treatment process or is used for ultimate disposal of residues resulting from such treatment; or any other method or system for preventing, abating, reducing, storing, treating, separating, or disposing of municipal waste or industrial waste, including waste in combined storm water and sanitary sewer systems.
12. "Water meter" means a water volume measuring and recording device, furnished and/or installed by the Southern Iowa Rural Water Association or furnished and/or installed by a user and approved by the Southern Iowa Rural Water Association.

99.03 REQUIREMENTS. The user charge system shall generate adequate annual revenues to pay costs of: (i) annual operation and maintenance including replacement; and (ii) costs associated with the sewer bond debt retirement for financing the wastewater treatment works which the City may, by resolution, designate to be paid by the user charge system. That portion of the total user charge which is designated for operation and maintenance, including replacement of the treatment works, shall be established by this chapter.

99.04 ESTABLISHMENT OF FUNDS. That portion of the total user charge collected which is designated for operation and maintenance including replacement purposes as established in Section 99.07 shall be deposited in two separate non-lapsing funds, as follows:

1. A fund designated as the "Wastewater Treatment Works Operation and Maintenance Fund" for the specific purpose of defraying operation and maintenance costs, excluding replacement, of the wastewater treatment works.
2. A fund designated as the "Wastewater Treatment Works Replacement Fund" for the specific purpose of ensuring replacement needs over the useful life of the wastewater treatment works.

Deposits in these two funds shall be made at least annually from that portion of the total user charge collected and designated for operation, maintenance and replacement purposes in the total amount of \$62,400.00 annually. While sewer revenue bonds of the City are outstanding, the provision of the resolution authorizing the issuance of the bonds shall, in the event of conflict, prevail on the provisions of this section and Section 99.05.

99.05 MAINTENANCE OF FUNDS. Fiscal year-end balances in the wastewater treatment works operation and maintenance fund and the wastewater treatment works replacement fund shall be carried over to the same funds in the subsequent fiscal year, and shall be used for no other purposes than those designated for these funds. If moneys are transferred from other funds of the City to meet temporary shortages in the wastewater treatment works operation and maintenance fund and/or wastewater treatment works replacement fund, such transferred moneys shall be returned to their respective accounts upon appropriate adjustment of the user charge rates for operation, maintenance and replacement. The user charge rates shall be adjusted such that the transferred moneys will be returned to their respective accounts within the fiscal year following the fiscal year in which the moneys were borrowed.

99.06 BASIS OF USE DETERMINATION. The use of the wastewater treatment works shall be determined on the following basis:

1. Each user shall pay for the services provided by the City based on use of the wastewater treatment works as determined by water meters acceptable to the City.
2. If a commercial or industrial contributor has a consumptive use of water or in some other manner uses water which is not returned to the wastewater collection system, the user charge for that contributor may be based on a wastewater meter or separate water meter installed and maintained at the expense of the contributor and in a manner acceptable to the City.
3. In case of privately owned or unmetered water supplies, all or any part of which is discharged into the public sanitary sewer system of the City, the quantity of water discharged into said sewer system shall be determined, to the satisfaction of the Council, at the expense of the owner of such private or unmetered water supplies, and the sewer user charge shall be applied to an equal quantity and characteristic of waste as though originating through use of City water, the same as if metered and billed accordingly. If the quantity of water used is estimated to be in excess of 1,000 gallons per day for any one billing period, the Council may require that such water supply be metered at the expense of the owner of the same.

99.07 SEWER USER CHARGE. The minimum charge each month shall be \$7.50. In addition, each contributor shall pay a user charge rate for operation and maintenance including replacement of \$2.63 per 1,000 gallons of water or wastewater and an additional \$1.01 per 1,000 gallons of water or wastewater for sewer bond debt retirement.

99.08 SURCHARGES. For those customers who contribute wastewater of strength greater than normal domestic sewage, a surcharge will be collected in addition to the sewer user charge. The surcharge for operation and maintenance including replacement is:

\$0.54 per pound B.O.D.

\$0.30 per pound SS

99.09 ADDITIONAL CHARGES. Any user which discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the wastewater treatment works, or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance or replacement of the wastewater treatment works, shall pay for such increased costs. The charge to each such user shall be as determined by the Council.

99.10 APPLICATION. The user charge rates established in this chapter apply to all users, regardless of their location, of the wastewater treatment works.

99.11 BILLING FOR SEWER SERVICE. Sewer service charges shall be billed as part of a combined service account, due and payable under the same terms and conditions provided for payment for electric service as contained in the Electric Utility Service Rules.

(Code of Iowa, Sec. 384.84)

99.12 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

99.13 LIEN EXEMPTION.

1. Exemption. Pursuant to Iowa Code Section 364.2(4)(a)-(b) (2018), this ordinance renews and extends a prior ordinance of the City in which SIRWA was granted a non-exclusive water utility franchise within the City in accordance with Iowa Code Chapter 28E. This ordinance renews and extends the grant to SIRWA the right and franchise to construct, erect, maintain and operate in the City a water distribution system and appurtenances thereto for the distribution of potable water and the right to construct and maintain the necessary mains, pumps, meters, and meter pits, and other appurtenances for the transmission of potable water along and under the streets, avenues, alleys, public rights of way, and other public places in the City; also the right to construct and maintain upon and under the streets, avenues, alleys, public rights of way, and public places, transmission mains through the City to supply and sell potable water to individuals and entities inside of the City.

110.02 RENEWAL AND EXTENSION OF FRANCHISE. The City hereby grants to SIRWA a renewal and extension of a non-exclusive franchise to own the water distribution system within the City and thereafter to maintain, operate, repair, replace, dismantle, recycle, salvage, renew, reconstruct, and remove a water distribution system across public property and/or public rights of way within the City, in accordance with the rules and regulations of SIRWA, including the nonexclusive right, privilege, and authority to (a) sell and supply potable water to individuals and entities, inside the City; (b) use public property, including but not limited to existing public rights of way, within the City; (c) engage in such further activities within the City as may now or hereafter be consistent with the accepted principals applicable to the operation of a water distribution system.

For the purpose of effecting the privileges granted hereunder, SIRWA is authorized to make all necessary excavations in the streets, alleys, sidewalks, public rights of way, and other public grounds within the corporate limits of the City, but such excavations shall be carried out with reasonable dispatch and with as little interference with or inconvenience to the rights of the public as may be feasible. SIRWA shall restore all streets, alleys, sidewalks, public rights of way, and public grounds to the condition of safety, appearance and utility specified by the relevant construction industry standards after any excavation or other work.

110.03 TERM. The franchise is granted for a term of forty (40) years commencing with the date of the City's adoption of this ordinance,[†] provided however, that the City may not withdraw from this agreement as long as SIRWA shall have revenue bond obligations incurred for the construction, reconstruction, maintenance, repair, or improvement of said water distribution system outstanding at that time, as provided in Iowa Code Section 28E.4 (2018). Thereafter, the franchise may be renewed for an additional term upon such terms and conditions as may be mutually acceptable to the City and SIRWA.

110.04 FINANCING AND BUDGET. Funding this joint undertaking was from revenues of the water utility, loans, grants, revenue bonds or notes obtained by SIRWA. Said revenue bonds or notes shall mature in a period not to exceed the remaining term of this ordinance, shall bear interest or combined interest and insurance charges, at a rate not to exceed that permitted by Iowa Code Chapter 74A (2018), shall be payable only from revenue derived from the sale of treated water by SIRWA, and shall never become or be construed to be a debt against the State of Iowa, Union County, or the City. SIRWA shall have the continued responsibility for budgeting and administration of construction and operation of the water system.

110.05 GENERAL CONDITIONS.

1. Adoption of Rules and Regulations. City confirms, ratifies, and reaffirms adoption and incorporation by reference herein the rules and regulations of SIRWA.
2. Mandatory Connection. All residences and business establishments within the City limits intended or used for human habitation, occupancy, or use shall be connected to the water distribution system installed, owned, and operated by SIRWA. This section includes and applies to any building, mobile home, or other structure in which a person or persons lives or resides and/or in which any activity for profit is conducted as well as other public or private buildings, including but not limited to churches, schools and other buildings operated by any religious or non-religious order or governmental subdivision. Failure to comply with this ordinance shall constitute a simple misdemeanor. Each day of non-compliance with this ordinance shall constitute a separate offense.
3. Disclaimer. SIRWA shall not be responsible for any damages of any nature whatsoever caused by, related to, or arising out of any environmental hazards and/or other conditions associated with pipeline or other parts of the water distribution system installed prior to SIRWA's own operation and maintenance of the system.
4. Expansion of SIRWA's Facilities. Any facilities and appurtenances in streets, alleys, and public places, incidental to the franchised system that have been, or are at any future time acquired, leased, or utilized in any manner by SIRWA are thereupon to be deemed authorized by and shall be subject to all the provisions of the franchise.
5. Limitation of Franchise. No privilege or exemption is granted or conferred by the franchise except those specifically described herein or otherwise mutually agreed upon the parties pursuant to applicable law and expressly authorized by the governing bodies of the City and SIRWA. Any privilege claimed under the franchise by SIRWA in any street, alley, public right of way, or other public place shall be subordinate to

any lawful occupancy of same by the City or by any other public agency, and to prior lawful occupancy of same by any other entity or person.

6. **SIRWA's Separate Powers Not Limited.** Notwithstanding the foregoing limitations, nothing in this agreement shall be deemed a limitation of SIRWA's separate powers as set forth in Iowa Code Chapter 357A (2018) or any other relevant provision of the Iowa Code and other applicable law.

110.06 ASSIGNMENT OF FRANCHISE. This section shall not be deemed a limitation upon SIRWA's power and authority to pledge revenues derived from the franchise or assets of the distribution system as collateral with the United States Department of Agriculture – Rural Development (USDA-RD), its successor agencies or any other lender.

SIRWA does, in fact, hereby pledge and assign to the USDA-RD, and its successor agencies, its rights under this contract as additional collateral.

110.07 FORFEITURE. The franchise may be forfeited, at the option of the City, upon failure or refusal by SIRWA to observe the terms and conditions set forth herein. Forfeiture may be exercised by written notice to SIRWA of failure to observe the terms and conditions hereof, followed by SIRWA's refusal to eliminate or correct such failure or violation within one year. In the event of any failure or violation, the City may sue in its own name in the manner provided by law for the forfeiture of the franchise and the exercise of such remedy of forfeiture shall not preclude exercise of any other right or remedy given to City by law, whether exercised concurrently or subsequently.

In the event the City forfeits the franchise and the City or any other entity assumes operation of the water distribution system within the City, the City or other assuming entity shall also assume responsibility for any and all outstanding debt upon the water distribution system within the City pursuant to Sections 110.03 and 110.04 above.

110.08 SEVERABILITY. If any section, provision, or part of this agreement shall be adjudged invalid or unconstitutional, such adjudication shall not affect the validity of the agreement as a whole, or any section, provision, or part thereof not adjudged invalid or unconstitutional.

As a condition of service, each customer, including customers living outside the corporate limits, shall agree to observe all rules and regulations established by the Council for the operation of the municipal electric system.

1. Service Characteristics for Standard and Other Extensions. The utility shall make available, throughout its service area, electric service of a character determined by the utility to meet the needs of the customer. The standard service available to meet this obligation is 120/240 V(nominal voltage), 60 Hz alternating current, single phase, 200 amperes or less, supplied via overhead conductor. In supplying this service, the utility shall construct, own and maintain all facilities up to the metering device. Where the utility chooses to install underground conductor in supplying standard electric service, the utility shall construct, own, and maintain all facilities up to and including the transformer or secondary junction box. In all standard service extensions, the utility shall furnish, own, and maintain the meter socket and meter. Other service connections, including three-phase service and service at primary voltage, are available at the option of the utility and may require a contribution in aid of construction or an advance for construction costs. Terms and conditions of customer participation shall be established by the Council. The Council may waive the aid in construction in whole or in part upon a determination that the waiver is in the public interest. Such waiver, when entered in the minutes of the Council, shall not be considered a discriminatory practice.

2. Service Extensions within City Limits. The utility shall make standard line extensions in platted areas within the corporate limits of the City without charge to the customer. Underground service to a customer currently served via overhead conductor shall require the customer to provide a suitable trench for the conductor. The utility will install conductor rated for the amperage of the existing overhead conductor at no cost. Should the customer wish to upgrade the extension, the customer will be charged for the difference between the cost of the overhead equivalent conductor and the size installed. Extensions will be constructed along existing public roads, streets, and alleys and, wherever practicable, along the rear of the customer’s lot. The route of the line extension and location of the meter will be determined by the utility.

3. Service Extensions; Rural Areas. In serving customers outside the corporate limits of the City, the utility shall make all standard, single phase line extensions along State or County rights-of-way at no charge to the customer. Aid and extension can be requested. Extensions leaving a right-of-way shall require a contribution in aid of construction for the cost of that portion of the extension beyond the first 50 feet on the customer’s property to the point of metering. In the case of underground extensions, the customer shall complete trenching in accordance with standards of the utility. The service line shall be installed by the utility. The utility shall furnish, own, and maintain the meter socket and meter.

4. Nonresidential Low-Use Extensions. Low-use service at sites where no residence exists, such as service for isolated water pumps, cribs, dryers, feed lots, etc., shall require a contribution in aid of construction equal to the cost of installing the service.
5. Temporary Extensions. Where service is likely to be temporary, the utility shall require a contribution in aid of construction equal to the total cost of installing and removing the service, less the cost of reusable materials. Any deposit in excess of actual costs will be refunded.
6. Three-Phase Extensions. Three-phase extensions for upgrading current service shall require an aid in construction equal to the total cost of the service upgrade. Three-phase extensions to a customer not presently being served by the utility shall require a contribution equal to the cost of installation, less the estimated cost of a standard single-phase extension.
7. Security Lighting. Security lighting fixtures shall be installed on private property upon request of a customer and upon a determination by the utility that such lighting is necessary or prudent. The utility will install the fixture on the utility side of the meter at a monthly charge of \$10.00, which shall include unmetered energy.

112.07 OTHER CHARGES FOR ELECTRIC UTILITY SERVICES.

1. Temporary Disconnection and Reconnection. Temporary disconnection and reconnection for the convenience of the customer shall be performed during regular business hours for a charge of \$60.00. When either disconnection or reconnection is requested after business hours, an additional charge of \$80.00 shall apply for each after-hours trip.
2. Customer Requested Meter Tests. A charge of \$10.00 shall apply to customer-requested meter tests, when the meter is found to be within the allowable tolerance. A charge of \$20.00 shall apply to referee tests, where the meter is found to be within the allowable tolerance.
3. Returned Check Charge. For returned checks, a customer shall be required to pay a service charge of \$20.00.

When a customer/owner orders service reconnected at the same address within a six-month period after disconnection occurred, the customer/owner shall be required to pay a reconnection charge of \$50.00, if reconnection occurs during regular business hours, or \$75.00 if reconnection occurs after regular business hours.
6. Basis of Cost. For services performed for the utility by contract, the customer shall be billed for the full cost to the utility, plus an administrative charge of five percent. Where the cost of materials is to be assessed to the customer, the cost shall be deemed to be the replacement cost at the time of installation.

7. Customer Deposits. A deposit in an amount equal to two times the highest monthly billing for service during the previous 12-month period shall be paid unless other credit criteria as listed in the Service Rules of the Municipal Electric Utility are met.
8. Posting Fee. A posting fee of \$25.00 shall be charged when a notice must be posted on the door of a delinquent customer prior to discontinuance of service for nonpayment of the account.

122.02 DEFINITIONS. For use in this chapter the following terms are defined:

1. “Peddler” means any person carrying goods or merchandise who sells or offers for sale for immediate delivery such goods or merchandise from house to house or upon the public street.

Temporary association with a local merchant, dealer, trader or auctioneer, or conduct of such transient business in connection with, as a part of, or in the name of any local merchant, dealer, trader, or auctioneer does not exempt any person from being considered a transient merchant.

122.03 LICENSE REQUIRED. Any person engaging in peddling, soliciting or in the business of a transient merchant in the City without first obtaining a license as herein provided is in violation of this chapter.

122.04 APPLICATION FOR LICENSE. An application in writing shall be filed with the Clerk for a license under this chapter. Such application shall set forth the applicant’s name, permanent and local address, and business address if any. The application shall also set forth the applicant’s employer, if any, and the employer’s address, the nature of the applicant’s business, the last three places of such business and the length of time sought to be covered by the license. An application fee of \$5.00 shall be paid at the time of filing such application to cover the cost of investigating the facts stated therein.

122.06 BOND REQUIRED. Before a license under this chapter is issued to a transient merchant, an applicant shall provide to the Clerk evidence that the applicant has filed a bond with the Secretary of State in accordance with Chapter 9C of the *Code of Iowa*.

122.07 LICENSE ISSUED. If the Clerk finds the application is completed in conformance with the requirements of this chapter, the facts stated therein are found to be correct, and the license fee paid, a license shall be issued immediately.

122.08 DISPLAY OF LICENSE. Each solicitor or peddler shall keep such license in possession at all times while doing business in the City and shall, upon the request of prospective customers, exhibit the license as evidence of compliance with all requirements of this chapter. Each transient merchant shall display publicly such merchant's license in the merchant's place of business.

122.09 LICENSE NOT TRANSFERABLE. Licenses issued under the provisions of this chapter are not transferable in any situation and are to be applicable only to the person filing the application.

The Clerk shall send the written notice to the licensee at the licensee's local address. The notice shall contain particulars of the complaints against the licensee, the ordinance provisions or State statutes allegedly violated, and the date, time, and place for hearing on the matter.

122.12 HEARING. The Clerk shall conduct a hearing at which both the licensee and any complainants shall be present to determine the truth of the facts alleged in the complaint and notice. Should the licensee, or authorized representative, fail to appear without good cause, the Clerk may proceed to a determination of the complaint.

122.13 RECORD AND DETERMINATION. The Clerk shall make and record findings of fact and conclusions of law, and shall revoke a license only when upon review of the entire record the Clerk finds clear and convincing evidence of substantial violation of this chapter or State law.

122.14 APPEAL. If the Clerk revokes or refuses to issue a license, the Clerk shall make a part of the record the reasons for such revocation or refusal. The licensee, or the applicant, shall have a right to a hearing before the Council at its next regular meeting. The Council may

reverse, modify, or affirm the decision of the Clerk by a majority vote of the Council members present and the Clerk shall carry out the decision of the Council.

122.15 EFFECT OF REVOCATION. Revocation of any license shall bar the licensee from being eligible for any license under this chapter for a period of one year from the date of the revocation.

If the Clerk finds that the organization is a bona fide charity or nonprofit organization, the Clerk shall issue, free of charge, a license containing the above information to the applicant. In the event the Clerk denies the exemption, the authorized representatives of the organization may appeal the decision to the Council, as provided in Section 122.14 of this chapter.

DRIVEWAY REGULATIONS

141.01 Definitions

141.02 Drive, Gravel and Culvert Installation

141.03 Driveway Requirements

141.04 Sidewalks

141.05 Excavations

141.06 Driveways on Concrete Streets

141.07 Revocation of Permit

141.08 Inspection and Approval

141.01 DEFINITIONS. For use in this chapter, the following terms are defined:

1. “Driveway” means that part of any approach for motor vehicles to private property that lies between the property line and the roadway of the public street.
2. “Paving” includes any kind of hard surfacing, including, but not limited to, Portland cement concrete, bituminous concrete, brick, stabilized gravel, or combination of such materials, with the necessary base. “Paving” does not include surfacing with oil, gravel, oil and gravel, or chloride.

141.02 DRIVE, GRAVEL AND CULVERT INSTALLATION. Upon request of a property owner, the City shall install one driveway for each single-family dwelling or business located on a lot. The City will install a culvert of sufficient size to carry normal run-off water and of a length to provide a finished top grade 14 feet wide. In no case shall any driveway culvert be less than 12 inches in diameter. The tube shall be a type of material approved for road building purposes. The City shall furnish a crushed rock surface 14 feet wide and extending from the traveled portion of the roadway to the property line. Driveways wider than 14 feet shall be at the property owner’s expense. In no case shall the City furnish a surface material other than crushed rock. However, other surfaces (such as oil, pea gravel, concrete, etc.) shall be allowed at the property owner’s expense.

141.03 DRIVEWAY REQUIREMENTS. All driveways shall be of gravel or paving of a depth of not less than four inches and shall be at least 10 feet in width. The driveway may be placed directly on compact and well-drained soil. Where soil is not well drained, a four-inch sub-base of compact, clean, coarse gravel, sand, or cinders shall be laid. The driveway shall slope not more than one inch per foot toward the roadway. The minimum driveway width at the curb line shall be 12 feet.

All such excavations shall have proper barricades at all times, and warning lights placed from one-half hour before sunset to one-half hour after sunrise. In refilling the excavation, the earth must be laid in layers and each layer tamped thoroughly. Any street, sidewalk, or other public property that is affected by the work shall be restored to as good a condition as it was previous to the excavation. The affected area shall be maintained in good repair to the satisfaction of the Council after refilling.

141.06 DRIVEWAYS ON CONCRETE STREETS. All driveways connecting with a paved street shall conform to the following requirements:

1. **Permit Required.** Before any person shall construct or repair a driveway connected with a paved street, said person shall obtain a written permit from the street commissioner. A written application for the permit shall be filed with the Clerk. The application shall include the legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the proposed plan of construction or repair, which shall include the depth, width, and type of surfacing material to be used. No other plans will be followed except by written permission of the street commissioner, who may allow amendments to the application or permit that do not conflict with this chapter. The street commissioner shall issue the permit, bearing his or her signature, and the date of issuance, if the proposed plan meets all the requirements of this chapter and if the construction or repair as planned will not create any substantial hazard in the use of the street or sidewalk for public travel or drainage, or create any defect. Each permit shall expire six months after the date of issuance, if not constructed within that time.
2. **Fee For Permit.** Before any permit is issued, the person who makes the application shall pay \$10.00 to the Clerk. The Clerk shall give the applicant a written receipt showing the sum received and the date. These fees shall be deposited in the City treasury.
3. **Curb Removal.** When a driveway approach is to be constructed and a curb drop is not at the location of the proposed approach, the curb shall be removed by a saw cutting as indicated in subsection 10 below. The concrete removed will be replaced with an equal thickness.
4. **Driveway Approach: Dimensions.** All driveway approaches shall be a minimum of 18 feet at the curb line, extend for a minimum of five feet from the back side of the curb, have a minimum width of 12 feet, and be at least four inches thick, as shown on the cross sectional diagram at subsection 10 below.
5. **Concrete Standards.** All concrete for driveway approaches will have a minimum 28-day compressive strength of 3500 PSI under laboratory conditions. One-half inch reinforcing rods will be installed as follows: one at each end of the cut out in line with the curb, spaced perpendicular to the cut at a maximum of 24 inches on center. Holes will be drilled a minimum of four inches and rods grouted into place.
6. **Elevation.** The elevation of the driveway approach, five feet from the back of the curb, will be no lower than the height of the top original curb.
7. **Joints.** One-half inch expansion joints will be installed in a line with the back of the curb.
8. **Inspection.** The City will inspect all forms before a driveway approach is poured. Not less than 24 hours' advance notice shall be given to the City before the driveway approach is poured. A final inspection will be made after the project, including grading and sodding, or seeding, is completed.
9. **Waterway.** The waterway defined by the original curb must be maintained after installation of the driveway approach.
10. **Cross Section.** In addition to the foregoing, all driveways subject to the requirements of this section shall be constructed in conformance with the following cross sectional diagram:

145.01 ENFORCEMENT OFFICER. The Mayor is responsible for the enforcement of this chapter.

145.02 GENERAL DEFINITION OF UNSAFE. All buildings or structures that are structurally unsafe or not provided with adequate egress, or that constitute a fire hazard, or are otherwise dangerous to human life, or that in relation to existing use constitute a hazard to safety or health, or public welfare, by reason of inadequate maintenance, dilapidation, obsolescence, or abandonment, are, for the purpose of this chapter, unsafe buildings. All such unsafe buildings are hereby declared to be public nuisances and shall be abated by repair, rehabilitation, demolition, or removal in accordance with the procedure specified in this chapter.

(Code of Iowa, Sec. 657A.1 & 364.12[3a])

145.03 UNSAFE BUILDING. “Unsafe building” means any structure or mobile home meeting any or all of the following criteria:

1. Various Inadequacies. Whenever the building or structure, or any portion thereof, because of: (i) dilapidation, deterioration, or decay; (ii) faulty construction; (iii) the removal, movement, or instability of any portion of the ground necessary for the purpose of supporting such building; (iv) the deterioration, decay, or inadequacy of its foundation; or (v) any other cause, is likely to partially or completely collapse.
2. Manifestly Unsafe. Whenever, for any reason, the building or structure, or any portion thereof, is manifestly unsafe for the purpose for which it is being used.
3. Inadequate Maintenance. Whenever a building or structure, used or intended to be used for dwelling purposes, because of dilapidation, decay, damage, faulty construction, or otherwise, is determined by any health officer to be unsanitary, unfit for human habitation or in such condition that it is likely to cause sickness or disease.
4. Fire Hazard. Whenever any building or structure, because of dilapidated condition, deterioration, damage, or other cause, is determined by the Fire Marshal or Fire Chief to be a fire hazard.
5. Abandoned. Whenever any portion of a building or structure remains on a site after the demolition or destruction of the building or structure or whenever any building or structure is abandoned for a period in excess of six months so as to constitute such building or portion thereof an attractive nuisance or hazard to the public.

145.04 NOTICE TO OWNER. The enforcement officer shall examine or cause to be examined every building or structure or portion thereof reported as dangerous or damaged and, if such is found to be an unsafe building as defined in this chapter, the enforcement

officer shall give to the owner of such building or structure written notice stating the defects thereof. This notice may require the owner or person in charge of the building or premises, within 48 hours or such reasonable time as the circumstances require, to commence either the required repairs or improvements or demolition and removal of the building or structure or portions thereof, and all such work shall be completed within 90 days from date of notice, unless otherwise stipulated by the enforcement officer. If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected, and approved by the enforcement officer.

(Code of Iowa, Sec. 364.12[3h])

1. Notice Served. Such notice shall be served by sending by certified mail to the owner of record, according to Section 364.12[3h] of the *Code of Iowa*, if the owner is found within the City limits. If the owner is not found within the City limits, such service may be made upon the owner by registered mail or certified mail. The designated period within which said owner or person in charge is required to comply with the order of the enforcement officer shall begin as of the date the owner receives such notice.
2. Hearing. Such notice shall also advise the owner that he or she may request a hearing before the Council on the notice by filing a written request for hearing within the time provided in the notice.

145.05 CONDUCT OF HEARING. If requested, the Council shall conduct a hearing in accordance with the following:

1. Notice. The owner shall be served with written notice specifying the date, time and place of hearing.
2. Owner's Rights. At the hearing, the owner may appear and show cause why the alleged nuisance shall not be abated.
3. Determination. The Council shall make and record findings of fact and may issue such order as it deems appropriate.[†]

145.06 POSTING OF SIGNS. The enforcement officer shall cause to be posted at each entrance to such building a notice to read: "DO NOT ENTER. UNSAFE TO OCCUPY. CITY OF AFTON, IOWA." Such notice shall remain posted until the required demolition, removal or repairs are completed. Such notice shall not be removed without written permission of the enforcement officer and no person shall enter the building except for the purpose of making the required repairs or of demolishing the building.

145.07 RIGHT TO DEMOLISH; MUNICIPAL INFRACTION. In case the owner fails, neglects, or refuses to comply with the notice to repair, rehabilitate, or to demolish and remove the building or structure or portion thereof, the Council may order the owner of the building prosecuted as a violator of the provisions of this chapter and may order the enforcement officer to proceed with the work specified in such notice. A statement of the cost of such work shall be transmitted to the Council. As an alternative to this action, the City may utilize the municipal infraction process to abate the nuisance.

[†] **EDITOR'S NOTE:** Suggested forms of notice and of a resolution and order of the Council for the administration of this chapter are provided in the APPENDIX to this Code of Ordinances. Caution is urged in the use of this procedure. We recommend you review the situation with your attorney before initiating procedures and follow his or her recommendation carefully.

(Code of Iowa, Sec. 364.12[3h])

145.08 COSTS. Costs incurred under Section 145.07 shall be paid out of the City treasury. Such costs shall be charged to the owner of the premises involved and levied as a special assessment against the land on which the building or structure is located, and shall be certified to the County Treasurer for collection in the manner provided for other taxes. In addition, the City may take any other action deemed appropriate to recover costs incurred.

If disapproved, the Building Inspector shall state its reasons for disapproval and notify the applicant of the same.

155.08 CONDITION OF THE PERMIT. All work performed under any permit shall conform to the approved application and plans, and approved amendments thereof. The location of all new construction as shown on the approved plot diagram, or an approved amendment thereof, shall be strictly adhered to. It is unlawful to reduce or diminish the area of a lot or plot of which a plot diagram has been filed and has been used as the basis for a permit, unless a revised plot diagram showing the proposed change in conditions shall have been filed and approved; provided that this shall not apply when the lot is reduced by reason of a street opening or widening or other public improvement.

155.09 REVOCATION. The Council may revoke a permit or approval issued under the provisions of this chapter in case there has been any false statement or misrepresentation as to a material fact in the application or plans on which the permit or approval was based.

155.10 PERMIT VOID. In the event that construction covered by a permit is not initiated and underway within one year from the date of issuance of a permit, such permit shall be deemed void and of no effect.

165.07 NONCONFORMITIES; INTENT. Within the districts established by this Zoning Ordinance there exist lots, structures, uses of land and structures, and characteristics of use which were lawful before the Zoning Ordinance was passed or amended, but which are prohibited, regulated, or restricted under the terms of this chapter or future amendment. It is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. Further nonconformities shall not be enlarged upon, expanded or extended, or be used as grounds for adding other structures or uses prohibited elsewhere in the same district but it is the intent of this chapter to allow structures which were nonconforming under the previous ordinance, but which are conforming under this chapter to be considered legal as of the date of adoption of the Zoning Ordinance and shall be allowed to be rebuilt, added to, or modified within the terms and requirements of this Zoning Ordinance. To avoid undue hardship, nothing in this Zoning Ordinance shall be deemed to require a change in the plans, construction, or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Zoning Ordinance and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner. Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

165.08 NONCONFORMING LOTS OF RECORD. In any district in which single-family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of adoption or amendment of this Zoning Ordinance, notwithstanding limitations imposed by other provisions of the Zoning Ordinance. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, if the lot shall conform to the regulations for the district in which such lot is located. Variance of yard requirements shall be obtained only through the action of the Board of Adjustment except that in the case of destruction the same dimensions of a building comprising the same location may be permitted.

165.09 NONCONFORMING USES OF LAND (OR LAND WITH MINOR STRUCTURES ONLY). Where at the time of passage of the Zoning Ordinance lawful use of land exists which would not be permitted by the regulations imposed by this Zoning Ordinance, and where such use involves no individual structure with a replacement cost exceeding \$1,000.00, the use may be continued so long as it remains otherwise lawful, provided:

1. No such nonconforming use shall be enlarged or increased, or extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Zoning Ordinance.
2. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel occupied by such use at the effective date of adoption or amendment of this Zoning Ordinance.
3. If any such nonconforming use of land ceases for any reason for a period of 12 months in any subsequent use of such land shall conform to the regulations specified by this chapter for the district in which such land is located.
4. No additional structure not conforming to the requirements of this Zoning Ordinance shall be erected in connection with such nonconforming use of land.

165.10 NONCONFORMING STRUCTURES. Where a lawful structure exists at the effective date of adoption or amendment of this Zoning Ordinance that could not be built under the terms of this chapter by reason of restrictions on area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such nonconforming structure may be enlarged or altered in such a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
2. Should such nonconforming structure or nonconforming portion of structure be destroyed by any means or to any extent, it shall be reconstructed to its previous dimensions or to dimensions which decrease the nonconformity, except in conformity with the provisions of this chapter.
3. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the regulations for the district in which it is located after it is moved.

165.11 NONCONFORMING USES OF STRUCTURES OR OF STRUCTURES AND PREMISES IN COMBINATION. If lawful use involving individual structures with a replacement cost of \$1,000.00 or more, or of structure and premises in combination, exists at the effective date of adoption or amendment of this Zoning Ordinance, that would not be allowed in the district under the terms of this chapter, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions.

1. No existing structure devoted to a use not permitted by this Zoning Ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
2. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Zoning Ordinance, but no such use shall be extended to occupy any land outside such building.
3. If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may as a special exception be changed to another nonconforming use provided that the Board of Adjustment, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Board of Adjustment may require appropriate conditions and safeguards in accordance with the provisions of this chapter.
4. Any structure, or structure and land in combination, in or on which a nonconforming use is superseded by a permitted use, shall thereafter conform to the regulations for the district, and the nonconforming use may not thereafter be resumed.
5. When a nonconforming use of a structure, or structure and premises in combination, is discontinued or abandoned for 12 consecutive months or for 18 months during any three-year period (except when government action impedes access to the premises) the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.

6. When nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of the subsection is defined as damage to an extent of more than 50 percent of the replacement cost at time of destruction. Replacement shall begin within six months of the time of destruction or the nonconforming status shall expire. Said construction shall also be completed within 18 months of the time of destruction or the nonconforming status shall expire.

165.12 REPAIRS AND MAINTENANCE. On any building devoted in whole or in part to any nonconforming use, work may be done on ordinary repairs, provided that the cubic content of the building as it existed at the time of passage or amendment of this Zoning Ordinance shall not be increased.

165.13 USES UNDER SPECIAL EXCEPTION PROVISIONS NOT NONCONFORMING USES. Any use which is permitted as a special exception in a district under the terms of this Zoning Ordinance (other than a change through Board of Adjustment action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district, but shall without further action be considered a conforming use.

165.14 ADMINISTRATION AND ENFORCEMENT. A Zoning/Building Administrator designated by the City Council shall administer and enforce this chapter. The Administrator may be provided with the assistance of such other persons as the City Council may direct.

165.15 ZONING/BUILDING PERMITS REQUIRED. No building or other structure shall be erected, moved, or added to, without a permit therefor issued by the Zoning/Building Administrator. No zoning/building permit shall be issued except in conformity with the provisions of the Zoning Ordinance, except after written order from the Board of Adjustment. Fees for zoning/building permits shall be as provided by City resolution. Zoning/building permits shall be applied for with the City Clerk and shall expire two years after the date of issuance if work is begun within 180 days of issuance or after 180 days if no substantial beginning of construction has occurred. Extensions of time may be granted in writing by the Zoning/Building Administrator for good cause.

1. The minimum horizontal dimension of a single-family dwelling shall be 16 feet. All single-wide and double-wide manufactured, mobile and modular homes must be occupied.

All actions of the Board concerning special exceptions or variances shall also be recorded in the office of the County Recorder. It shall be the responsibility of the appellant to record said action and all corresponding stipulations and further said action shall take effect upon the Board receiving sufficient confirmation of the same. At said hearing, any party may appear in person, by agent or by attorney.

C. Stay of Proceedings. An appeal stays all proceedings in furtherance of the action appealed from, unless the Zoning/Building Administrator from whom the appeal is taken certifies to the Board of Adjustment after the Notice of Appeal is filed with said official, that by reason of facts stated in the

certificate, a stay would, in the official's opinion, cause imminent peril to life and property. In such case proceedings shall not be stayed other than by a restraining order which may be granted by the Board of Adjustment or by a court of record on application, on notice to the Zoning/Building Administrator from whom the appeal is taken and on due cause shown.

2. Special Exceptions; Conditions Governing Applications; Procedures. A. A written application for a special exception is submitted indicating the section of this chapter under which the special exception is sought and stating the grounds on which it is requested.

B. The Board shall fix a reasonable time for the hearing of the special exception, and give not less than seven days' or more than 20 days' public notice in a paper of general circulation in the City thereof, and decide the same within 30 days. At said hearing, any party may appear in person, by agent or by attorney.

C. The public hearing shall be held. Any party may appear in person, or by agent or attorney.

D. The Board of Adjustment shall make a finding that it is empowered under the section of this Zoning Ordinance described in the application to grant the special exception, that the granting of the special exception, will not adversely affect the public interest.

3. Variance; Conditions Governing Application; Procedures. To authorize upon appeal in specific cases such variance from the terms of this Zoning Ordinance as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this chapter would result in unnecessary hardship. A variance from the terms of this Zoning Ordinance shall not be granted by the Board of Adjustment unless and until:

A. A written application for a variance is submitted demonstrating that:

(1) Special conditions and circumstances exist which are peculiar to land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same district.

(2) Literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter.

(3) The special conditions and circumstances do not result from the actions of the applicant.

(4) Granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, structures, or buildings in the same district.

No nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted or nonconforming use of land, structures, or buildings in other districts may be considered ground for the issuance of a variance.

B. The Board shall fix a reasonable time for the hearing of the variance, and give not less than seven days' or more than 20 days' public notice in a paper of general circulation in the City thereof, and decide the same within 30 days. At said hearing, any party may appear in person, by agent or by attorney.

C. The public hearing shall be held. Any party may appear in person, or by agent or by attorney.

D. The Board of Adjustment shall make findings that requirements of this section have been met by the applicant for a variance.

E. The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.

F. The Board of Adjustment shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this chapter, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

In granting any variance, the Board of Adjustment may prescribe appropriate conditions and safeguards in conformity with this chapter. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this chapter and punishable under this chapter. Under no circumstances shall the Board of Adjustment grant a variance to allow a use not permissible under the terms of this chapter in the district involved or any use expressly or by implication prohibited by the terms of this chapter in said district.

4. The concurring vote of four members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the Zoning/Building Official, or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter, or to effect any variation in the application of this Zoning Ordinance.

165.19 APPEALS FROM THE BOARD OF ADJUSTMENT. Any person or any board, taxpayer, department, board or bureau of the City, or other areas subject to this chapter aggrieved by any decision of the Board of Adjustment may seek review by a court of record of such decision, in the manner provided by the laws of the State and particularly by Chapter 414 of the *Code of Iowa*.

C. Residential streets – 10 percent.

122.14 BLOCKS. Design standards for blocks are the following:

1. The length of blocks shall be not less than 500 feet and not more than 1,400 feet in length.
2. Blocks shall be of sufficient width to permit two tiers of lots of appropriate depth and in no case shall the width be less than 220 feet, except where a single tier of double frontage lots parallels a limited access highway, a thoroughfare, drainage course, railroad or other barrier, the width shall not be less than 150 feet.

170.15 LOTS. Design standards for lots are the following:

1. All lots shall abut on a street or place. Corner lots which abut on a thoroughfare or collector street shall have a minimum radius of 15 feet at the intersection.
2. Side lines of lots shall approximate right angles to straight street lines and radial angles to curved street lines except where a variation will provide better lot layout.
3. Lots with double frontage shall be avoided, except in specific locations where good planning indicates their use. In that event, a planting screen shall be provided along the rear of the lot.
4. Lot width and area shall conform to the requirements of the applicable municipal or County zoning district in which such lots are located. Where interior lots are 90 feet in width or less, corner lots shall be at least 10 feet wider than interior lots.

170.16 SIDEWALKS. Design standards for sidewalks are the following:

1. Sidewalks shall be located in the street right-of-way one foot from the right-of-way line and shall be four feet in width.
2. The area between the curb and nearest edge of the sidewalk shall have a slope of one-half inch per foot toward the curb. This shall be the method for determining the grade of the sidewalk.
3. Crosswalks may be required in blocks over 700 feet long or in areas where curved streets require excessive out-of-distance travel. If required, they shall be located in a right-of-way not less than 30 feet in width and shall be constructed by the developer.

170.17 EASEMENTS. Design standards for easements are the following:

1. Easements not less than six feet in width shall be provided along each side of the rear lot lines of all lots, and along such other lot lines as may be required by public and private utility companies.
2. Easements of greater width may be required for trunk lines, pressure lines, open drainage courses or high voltage lines and shall be provided as determined by the utility or Council.
3. Utility easements shall convey to the City, its successors and assigns, the perpetual right within the areas shown on the plat and described in the easement, to construct, reconstruct, operate and maintain electric lines consisting of poles, wires,

cables, conduits, fixtures, anchors and other similar equipment, including the right to trim or remove trees within such areas where necessary to secure a clearance of four feet from the wires or poles, together with the right to extend to any telephone, telegraph, electric or power company, the right to use separately or jointly with the City, the areas included in the easement for the purposes above enumerated.

170.18 PARKS, SCHOOL SITES AND PUBLIC AREAS. In subdividing property, consideration shall be given to suitable sites for schools, parks, playgrounds, and other common areas for public use so as to conform to any recommendations of the City plan. Any provision for schools, parks, and playgrounds should be indicated on the preliminary plan in order that it may be determined when and in what manner such areas will be provided or acquired by an appropriate taxing agency.

170.19 PRESERVATION OF NATURAL DRAINAGE COURSES. Whenever any stream or important surface drainage course is located in an area which is being subdivided, the subdivider shall provide an adequate easement along each side of the stream for the purpose of widening, deepening, sloping, improving or protecting the stream or drainage course.

170.20 IMPROVEMENTS REQUIRED.

1. Sanitary Sewers. The subdivider shall provide the subdivision with sanitary sewage facilities in accordance with one of the following.

A. Public Collection System. Where reasonably available, the subdivider shall provide the subdivision with a complete sanitary sewer system which shall connect with the sanitary sewer system of the City. In such case the sewer system shall be approved by the Council and shall be designed and constructed in accordance with the municipal specifications.

B. Local or Community Treatment System. Where it is deemed by the City not to be practical to connect the subdivision sanitary sewer system to a municipal sewer, the subdivider shall install a local or community treatment system in accordance with the requirements of the Iowa Board of Health and the County Board of Health.

C. Private Disposal System. If it is demonstrated to the City that the above are not practical, the Council may, upon request, permit the subdivider to install on each lot, a septic tank and absorption field or other system approved by the County Board of Health, provided such lots meet the area requirements established for such systems under the Zoning Ordinance. In no case, however, shall private disposal systems be permitted where rock, impervious clay, or ground water is closer than 30 inches to the surface of the ground.

2. Storm Drains. The subdivider shall provide the subdivision with adequate drains, ditches, culverts, complete bridges, storm sewers, intakes and manholes to provide for the collection and removal of all surface waters, and these improvements shall extend to the boundaries of the subdivision so as to provide for extension by adjoining properties .

3. Sidewalks. Along thoroughfare and collector streets in residential areas, the subdivider shall provide a four foot wide concrete sidewalk along each lot frontage upon completion of the structure therein.

4. Markers. An iron rod not less than one-half inch in diameter and 24 inches in length shall be placed at all changes in direction of lot boundaries and at all lot corners except those where monuments are required.
5. Monuments. A reinforced concrete monument not less than four inches square or five inches in diameter and 48 inches in length with a brass cap, or similar type of monument approved by the City, shall be placed at the intersection of all lines forming angles in the boundary of the subdivision and at all block corners.
6. Grading. All streets and alleys within the platted area which are being dedicated for public use shall be brought to the grade approved by the Council.
7. Curb and Gutter. Curb and gutter shall be installed on all streets in the plat being dedicated for public use and shall be constructed of Portland cement concrete in accordance with designs and specifications and at grades approved by the Council.
8. Surfacing. All streets being dedicated for public use shall be surfaced to the width required by Section 170.13(3). Surfacing shall consist of not less than six inches of Portland cement concrete or a two-inch asphaltic concrete wearing surface over a four-inch asphalt treated base or over a six-inch rolled stone base and constructed in accordance with the design and specification, and at grades approved by the Council. Where a surface width in excess of 31 feet from back of curb to back of curb is required, the cost of the additional surface width which shall be assumed to be the center portion of the roadway surface, shall be paid by the City.

170.21 SPECIFICATIONS. The type of construction, the materials, the methods, and standards of subdivision improvements shall be equal to the current specifications of the City for like work. Plans and specifications shall be submitted to the Council for approval prior to construction and construction shall not be started until the plans and specifications have been approved.

170.22 INSPECTION. The Council shall cause the installation of all improvements to be inspected to insure compliance with the requirements of this chapter. The cost of said inspection shall be borne by the subdivider, and shall be the actual cost of the inspection to the City.

APPENDIX TO CODE OF ORDINANCES

USE AND MAINTENANCE OF THE CODE OF ORDINANCES

The following information is provided to assist in the use and proper maintenance of this Code of Ordinances.

DISTRIBUTION OF COPIES

1. OFFICIAL COPY. The “OFFICIAL COPY” of the Code of Ordinances must be kept by the City Clerk and should be identified as the “OFFICIAL COPY.”

2. DISTRIBUTION. Other copies of the Code of Ordinances should be made available to all persons having a relatively frequent and continuing need to have access to ordinances which are in effect in the City as well as reference centers such as the City Library, County Law Library, and perhaps the schools.

3. SALE. The sale or distribution of copies in a general fashion is not recommended as experience indicates that indiscriminate distribution tends to result in outdated codes being used or misused.

4. RECORD OF DISTRIBUTION. The City Clerk should be responsible for maintaining an accurate and current record of persons having a copy of the Code of Ordinances. Each official, elected or appointed, should return to the City, upon leaving office, all documents, records and other materials pertaining to the office, including this Code of Ordinances.

(Code of Iowa, Sec. 372.13[4])

NUMBERING OF ORDINANCES AMENDING THE CODE OF ORDINANCES

It is recommended that a simple numerical sequence be used in assigning ordinance numbers to ordinances as they are passed. For example, if the ordinance adopting the Code of Ordinances is No. 163, we would suggest that the first ordinance passed changing, adding to, or deleting from the Code be assigned the number 164, the next ordinance be assigned the number 165, and so on. We advise against using the Code of Ordinances numbering system for the numbering of ordinances.

RETENTION OF AMENDING ORDINANCES

Please note that two books should be maintained: (1) the Code of Ordinances, and (2) an ordinance book. We will assist in the maintenance of the Code of Ordinances book, per the Supplement Agreement, by revising and returning appropriate pages for the Code of Ordinances book as required to accommodate ordinances amending the Code. The City Clerk is responsible for maintaining the ordinance book and must be sure that an original copy of each ordinance adopted, bearing the signatures of the Mayor and Clerk, is inserted in the ordinance book and preserved in a safe place.

SUPPLEMENT RECORD

A record of all supplements prepared for the Code of Ordinances is provided in the front of the Code. This record will indicate the number and date of the ordinances adopting the original Code and of each subsequently adopted ordinance which has been incorporated in the Code. For each supplemented ordinance, the Supplement Record will list the ordinance number, date, topic, and chapter or section number of the Code affected by the amending ordinance. A periodic review of the Supplement Record and ordinances passed will assure that all ordinances amending the Code have been incorporated therein.

DISTRIBUTION OF SUPPLEMENTS

Supplements containing revised pages for insertion in each Code will be sent to the Clerk. It is the responsibility of the Clerk to see that each person having a Code of Ordinances receives each supplement so that each Code may be properly updated to reflect action of the Council in amending the Code.

AMENDING THE CODE OF ORDINANCES

The Code of Ordinances contains most of the laws of the City as of the date of its adoption and is continually subject to amendment to reflect changing policies of the Council, mandates of the State, or decisions of the Courts. Amendments to the Code of Ordinances can only be accomplished by the adoption of an ordinance.

(Code of Iowa, Sec. 380.2)

The following forms of ordinances are recommended for making amendments to the Code of Ordinances:
